Hi Steve!

Instead of saying Region 8 Gold King Mine Website, can you say:

\<a href=http://www2.epa.gov/goldkingmine\>EPA's Gold King Mine Website\</a\>

And you don't need the colon after that "at" (which is ideally "on" rather than "at") before the link text. Just have it read like a sentence:

The latest updates and information on the response at available on EPA's Gold King Mine Website.

Thanks!
